

Advice to Club Secretary

Team colours

At the League meeting for all of our Clubs I reported on recent discussions about the colours of some of the team strips that are being used this season.

The rule in the League handbook, Rule 19 on page 21 is very clear and has not changed in recent years.

The Dorset County Football Association ,that sanctions our competition , are very clear that all match officials are only permitted to wear kit that is black, white edging is allowed.

We know that there is a lot of items on the market that are multi coloured and some dark colour combinations are available.

All Clubs are requested to follow the requirements of Rule 19 and remember that a fine of £30 will be issued to any Club that is reported to the League.
